

Figure 1 shows a vertical sequence of 12 micrographs documenting the early development of a single embryo. The stages are labeled 1 through 12. Stage 1 shows a fertilized egg with two polar bodies. Stage 2 is the two-cell stage. Stage 3 is the four-cell stage. Stage 4 is the eight-cell stage. Stage 5 is the morula stage. Stage 6 is the gastrula stage. Stage 7 is an early larval stage. Stage 8 is a larval stage with a yolk sac. Stage 9 is a larval stage with a yolk sac. Stage 10 is a larval stage with a yolk sac. Stage 11 is a larval stage with a yolk sac. Stage 12 is the hatched embryo.
